The sights and sounds of a uniquely American art form come alive when the American Jazz Museum presents **Jazzin' Jammin' & Jivin': Jazz on Film**, an exhibit of fifty film posters on loan from the Separate Cinema Archive which highlight an eight decade period during which some of the greatest jazz musicians appeared on film including Bessie Smith, Duke Ellington, Louis Armstrong, Billie Holiday, Ella Fitzgerald, Cab Calloway, Louis Jordan, Dizzy Gillespie, and many others.

The American Jazz Museum is located in the Historic 18th & Vine Jazz District. It features interactive exhibits and films, educational programs, the Blue Room jazz club and the Gem Theater. Thousands of students, scholars, musicians and fans come here annually to learn about the legends, honor their legacy, or enjoy the best music America has to offer.
